BE652K 6.5"
2-WAY component Speaker Kit

Elite, but not elitist.

Some people just like... better. And those people know that despite marketing maneuvers to the contrary, you get what you pay for. BOSS Elite Bridges the gap between entry-level value brands and out-of-reach luxury brands so that our customers never feel left wanting.

We are driven to craft products that upend preconceived notions that high-performance and affordability can't possibility live together. BOSS Elite appeals to the discerning customer by offering audio products with features and configurations that build finely tuned listening experiences.

BOSS Elite is car audio for particular people.
