Bluefin Led Underwater lights.

BluefinLed switch Installation manual.

Thank you for choosing Bluefin LED underwater lights, our products have been designed and tested rigorously to ensure the optimum performance and longevity.

Please ensure that your product is installed as per our instructions below, failure to do so may invalidate your warranty.

This switch is to be used with Bluefin Led's range of underwater lights to complete your installation and control your lights.

Please follow the wiring schematic below to install the switch correctly, all wires are labelled with the corresponding connections.

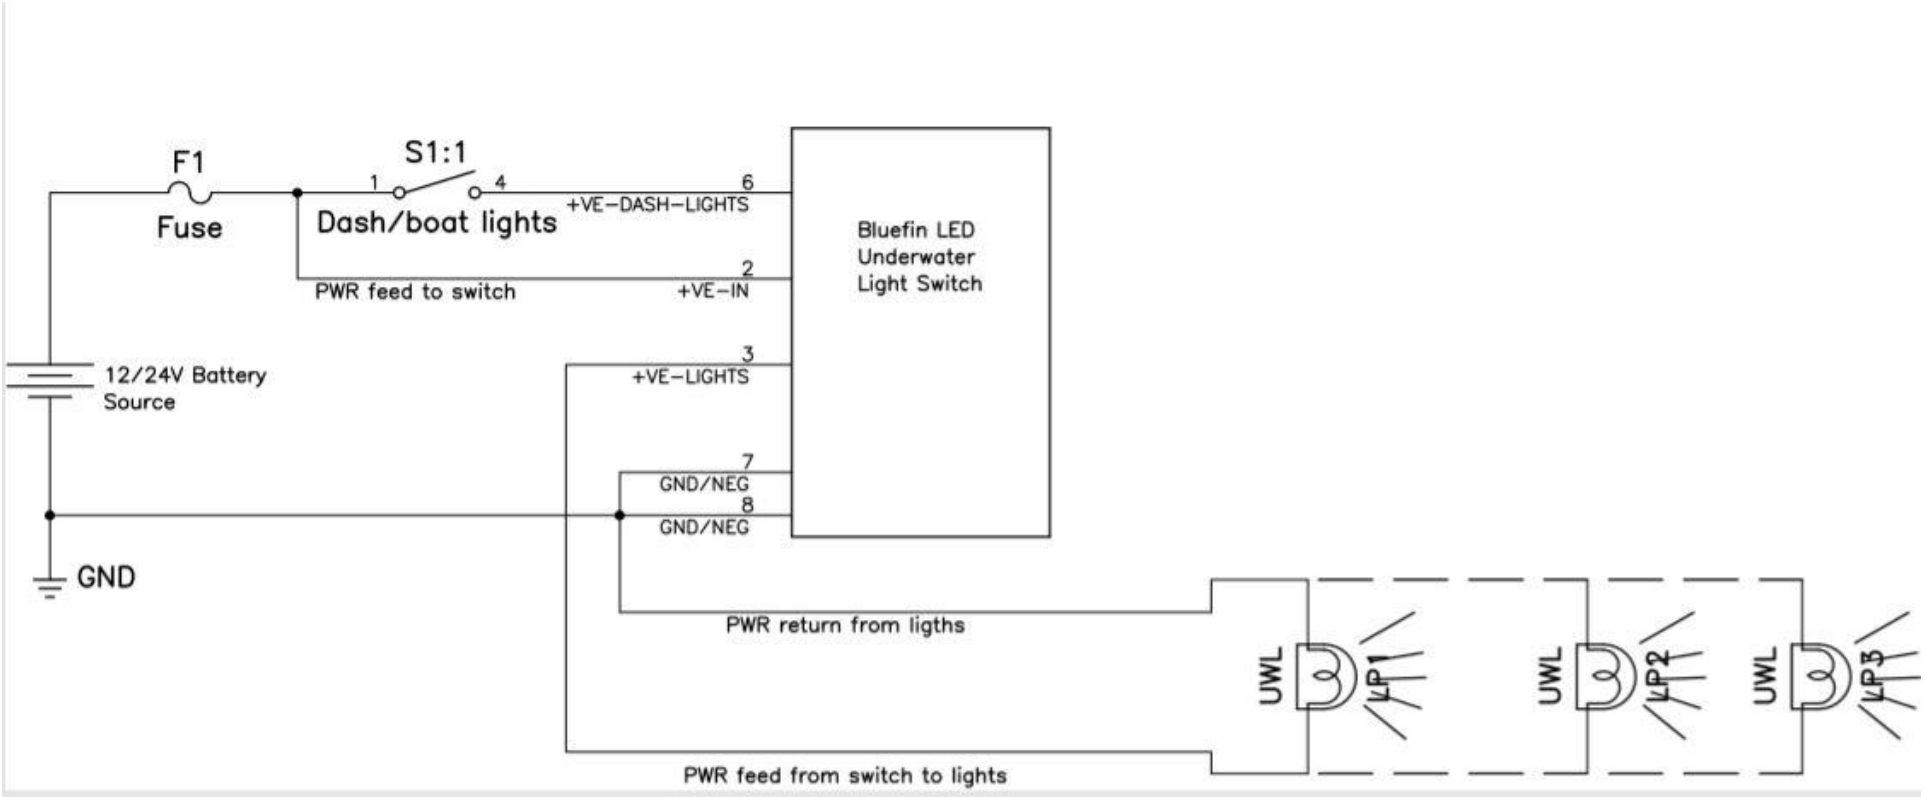

Please ensure that all connections are water proof.

The cut out for the switch is 17mm x 51mm, please use sealant to seal the unit when installed.
