FLEXIMA®

ELEGANCE

Inspired by Life at Sea

Discover our FLEXIMA® ELEGANCE: the luxurious premium mattress for relaxing nights and delightful days at sea.

FLEXIMA® ELEGANCE is an astonishing beauty that also impresses with its inner qualities. This noble premium mattress was developed exclusively for use on luxury yachts. It provides outstanding sleeping and lying comfort with excellent hygiene, making it the ideal foundation for deep relaxation at sea.

As a premium mattress manufacturer, we guarantee the highest quality at all levels:
You can rely on us. We offer certified materials and a unique patented mattress core as well as excellent service.

Every single product is handmade in our factory in Austria – made to measure and with the utmost care, allowing you to experience perfection.

ANCHORAGE FOR BODY AND SOUL

Bedded on unique springs. Carried by ocean waves.
The FLEXIMA® ELEGANCE premium mattress is the centrepiece of exquisite relaxation at sea. Offering a maximum of sleep and lying comfort, hygiene and pure well-being.

Custom-made Dreamspaces

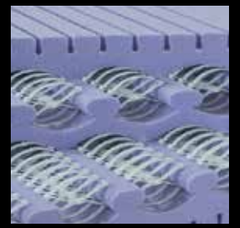

Design and functionality in perfect harmony

Relax and enjoy exclusivity in abundance. Your FLEXIMA® ELEGANCE premium mattress ranks among the best and most flexible yacht mattresses in the world. It is tailored exactly to your needs and handcrafted in various heights, firmness levels, spring zones and dimensions.

A FLEXIMA® ELEGANCE premium mattress consists of hundreds of point-elastic spring elements that support the body in every lying position and relieve the spine. These unique springs are nestled within high-quality cold foam, enclosed by hand-sewn covers.

The exquisite fabric in nautical design inspires from the very first moment – with exceptional comfort, first-class craftsmanship and golden details.

The materials dreams are made of

- Spring core: patented metal-free FLEXIMA® spring elements
- Foam: antibacterial and breathable EMC® cold foam with a unique ventilation system
- Covers: innovative, hypoallergenic and skin-friendly natural TENCEL™ fabric
- All materials are certified according to OEKO-TEX® STANDARD 100

An Ocean of Comfort

Patented, metal-free and flexible.
The perfect core.
Enjoying cloud nine at sea.

The patented FLEXIMA® spring elements are made of high-tech plastic and are globally unique. They ensure excellent spring effect and allow your FLEXIMA® ELEGANCE to breathe. This creates healthy air circulation inside the mattress, allowing it to dry quickly.

In a single FLEXIMA® ELEGANCE premium mattress, there are several hundred spring elements – arranged in a special combination.
By changing the number and position of the individual spring elements, the degree of firmness of the mattress can be adjusted (even afterwards).

Unbeatable arguments

- Patented, metal-free spring elements
- Excellent spring effect
- Outstanding ventilation
- First class hygiene
- Adjustable firmness level
- Guaranteed durability

To top it all off

Soft toppers, mattress protectors and fitted sheets for an enjoyable sleeping experience.

SOFT TOPPER
Eight centimeters in height for extra soft sleeping comfort: The soft topper can be zipped directly onto the FLEXIMA® ELEGANCE premium mattress. In larger beds, it eliminates the gap with split mattresses and ensures a super-soft sleeping experience.

Material mix: high-quality extra-soft cold foam, skinfriendly natural TENCEL™ fabric; washable up to 60 °C.

MATTRESS PROTECTOR
The ideal middle layer: The mattress protector separates the soft topper or mattress from the fitted sheet and is fastened with convenient elastic bands. It prolongs the lifespan of your FLEXIMA® ELEGANCE premium mattress, supports allergy-free sleep and feels pleasantly soft.

Material mix: skin-friendly natural TENCEL™ fabric; washable up to 60°C.

FITTED SHEETS
Skin-friendly and perfectly fitting cotton bed sheets: The custom-made fitted sheets fit like a glove on your FLEXIMA® ELEGANCE sleeping system and ensure a pleasantly fresh sleeping comfort.

Material mix: 95% cotton, 5% elastane; washable up to 60°C.

Custom-made and Sustainable Masterpieces

In our mattress factory in Austria, we produce sustainable premium products ensuring long-lasting joy.

Your FLEXIMA® ELEGANCE premium mattress comes from St. Andrä, a small town in the South of Austria. In our factory we handcraft your individual yacht mattress with the utmost care.

From the production of the patented spring elements to the foam cutting and the final seam of the cover, we carry out all production steps in-house. This way, we can guarantee top standards in terms of quality and reliable delivery.

For our sustainable premium mattresses, we use only high-quality, pollutant-free materials of non-animal origin. Almost all of these materials are sourced from our region, which results in very short supply chains – and the least possible impact on the environment.

Furthermore, our mattresses are exceptionally durable and retain their outstanding characteristics much longer than conventional yacht mattresses.

The Best Service under the Sun

Your measures are our mission.

Expect excellent work from first contact to after-sales service. We advise and assist you in selecting your ideal sleeping system.
You benefit from swift order processing and the option of high-priority orders.
